FUND OBJECTIVE
Seeks to provide investors with total a return consistent with a broadly diversified portfolio of high quality fixed income securities and common stocks, with varying equity allocations in accordance with the desired risk/return tradeoff.

INVESTMENT STRATEGY
The Fund consists of units from the Fixed Income Fund and Total Equity Fund. The Fund’s higher allocation to fixed income (35% equity, 65% fixed income) provides stability and income while the equity allocation provides global exposure for modest capital appreciation. The Fund employs shareholder engagement and social and environmental screens.

The performance data shown represent past performance, which is not a guarantee of future results. Investment returns and principal value will fluctuate, so that investors’ shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data cited. Before investing in any UCF fund, prospective investors should consider carefully the investment objectives, risks, and expenses.
